THE WESTFIELD TQC AWNING SERIES

PREMIUM PLUS-SERIES

 Made in Germany

The **PREMIUM PLUS SERIES** air awnings are Westfield's top of the range, and most innovative products. All products in this series are manufactured in Germany, predominantly with European materials from premium suppliers such as Ten Cate, Mehler AirTex and more.

All of Westfield's experience, combined with the best technology on the market, with the added user-friendly features found on all of Westfield's products helps to produce the very best products with the best performance possible. This is the **PREMIUM PLUS SERIES**.

PREMIUMSERIES

The **PREMIUM SERIES** from Westfield TQC is their class leading range of products characterised by the combination of exclusive premium materials, advanced technology and extremely user-friendly features. Thanks to the unique AAS System[®], with which the air awning is inflated at a single point, the air awning can be set up quickly and easily. The materials used, such as the Hydrotech[®] CottonTouch fabric with its anti-condensation performance, amazing weather resistance and UV stability help elevate it above its rivals. This fabric and the construction with "three-layer" air tubes, guarantee long-term comfortable use.

PREMIUM LIGHTSERIES

The **PREMIUM LIGHT SERIES** range of products from Westfield TQC are a premium range of lighter weight awnings. They have been built to have top of the range performance you would expect from Westfield, combined with the user-friendly features found on all Westfield TQC products, but simply lighter. The fact the products are lighter makes them easier to use, but the no compromise on performance means that even though they are lighter, they will still last for years. They have the same easy to use and ultra-reliable AAS air system, but feature the extremely modern and lightweight Hydrotech[®] RipStop fabric, which is a next generation lightweight fabric which gives you the performance you would expect from a heavyweight fabric in a lightweight package.

THE WESTFIELD TQC FURNITURE SERIES

The entire Westfield TQC furniture series has a class leading 5 year warranty.

AVANTGARDE SERIES

MODERN DESIGN, LATEST MATERIALS, STATE-OF-THE-ART

The **AVANTGARDE SERIES** impresses from the offset with it's numerous unique features and exclusive materials. This is the designer range from Westfield TQC.

Solutions and materials that are so innovative that we have patents on many of them, ensuring their exclusivity and keeping them not only looking better, but also performing better than their rivals.

For example, materials such as DuraLite alloy are used, which not only saves weight but is also highly resilient and stronger than aluminium.

All of these are developments that stand for high stability and exceptional outdoor properties. Anyone who chooses a camping chair or table from this high-end series is opting for modern design, high comfort and extremely long durability.

PERFORMANCE SERIES

COMFORTABLE, STABLE, TIMELESS

Our **PERFORMANCE SERIES** is all about performance and durability. These products are made to the very highest standards with the exclusive materials, plus additional strengthening techniques and features giving you the very highest performance available.

Here, owners will find a large selection of chairs with matching accessories, clever camping table solutions, camping loungers and innovative steps that make getting into your caravan or motorhome easy.

The **PERFORMANCE SERIES** offer the best balance of solid design, robustness and comfort.

OUR PATENTED MATERIALS

DURADORE® 3 D

**WATER
RUNS
THROUGH**

The "Aquarınse Technology" allows rain-water to run through the structure. This means the material dries very quickly.

ErgoShell®

ERGONOMIC

The ergonomically shaped seat with ErgoShell® technology adapts to the natural shape of the spine and offers optimal support and comfort.

BREATHABLE

Thanks to the special weave of the DURADORE® 3D Mesh, the fabric is breathable and air-permeable.

DURALITE

LIGHT METAL

Westfield TQC frames are made from a patented light metal alloy called DuraLite.

ADVANCER PRO

Welcome to the **ADVANCER PRO**. This is the next generation of the most popular advancer chair. This chair is bringing new a level of design, performance and features simply not found on any of its rivals.

It has a folded depth of only 14 instead of 17 centimetres in the pack size, the **ADVANCER PRO** takes up even less storage space. The armrests in the new design cover the metal slide rails and offer a finer gradation when leaning back with 6-way adjustment instead of 5. The optimized materials also set standards. The DuraDore® 3D Soft Touch Mesh is the best 3D mesh on the market – softer and more comfortable for the skin.

compact packing size:

H:107 x W:67 x D:14 cm

Armrest: Metal slide rails with 6-way adjustment

Material: DuraDore® Soft Touch 3D Mesh

Joints: Light metal

Frame: Duralite

Ergonomic:
